GIRAFFE EXPERIENCE

This new world-class giraffe habitat gives Zoo guests, young and old, a chance to get nose to nose with the world's tallest animal. "Giraffes are amazingly beautiful creatures and this experience truly showcases their beauty and connects our guests to this endangered animal," said Zoo President John Chapo.

World-Class Habitat

The third largest giraffe building in the country includes features like a special padded and heated floor, individual bedrooms, birthing area and veterinary care area.

Indoor & Outdoor Feeding

One of the only places in the country to feed a giraffe year-round, this experience was built with firsthand interaction as the foundation.

An Amazing View

Whether guests are inside or outside, their view of the giraffes is like no other. Eye to eye perspectives are found on the feeding decks and their outdoor habitat is the backdrop for the new animal theater and new play experience coming in 2020.

THE SECRET JUNGLE

In a place far, far away is a civilization home to spider monkeys and their mysterious world – The Secret Jungle. Here children and adults will climb with the monkeys, take a plunge down a waterfall slide and help make it rain in the jungle. Zoo President John Chapo says, “There is nothing like this experience anywhere in the world. It is a combination of interaction with nature and entertainment that is only found here at Lincoln Children’s Zoo.”

Climb with the Monkeys

With over 1,500 square feet of climbing area that rises over 25 feet in the air, children and even the grown-ups will find this one of the most exciting areas at the Zoo. Throughout the entire climber, guests will have extraordinarily close interactions with the spider monkeys and their world.

Make It Rain

It rains in the jungle, so it must rain in The Secret Jungle.

Guests will help the monkeys by sending toy rain drops to the clouds where the skies will open up and rain down on those below every 15 minutes.

Take the Plunge

A jungle wouldn’t be a jungle without the Paradise Falls waterfall slide. This twisting and turning slide drops over 24 feet from the top of the climber down and is the centerpiece to the experience.

SNAP A PIC WITH OUR NEW ANIMALS!

Kendy

The newest and youngest member of our tower of giraffes, Kendy is also the most outgoing.

Phoebe

Phoebe was the first giraffe to arrive in Lincoln! Can you spot the heart on her cheek?

Joey

The oldest and tallest of the giraffes in Lincoln! He loves to snack on pumpkins.

Allie

Allie has the darkest spots of all the girls and turns 2 on June 20!

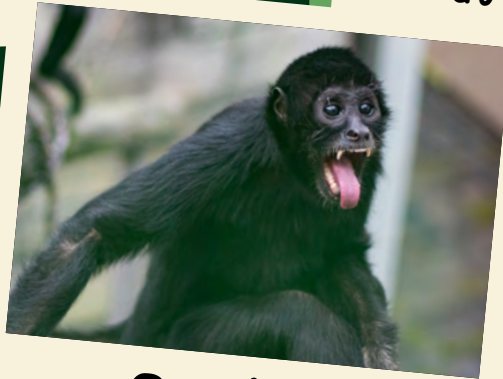

Lola

Lola's favorite thing to do is play with all the enrichment toys her keepers have given her!

Aliena

Old and wise, Aliena is the oldest spider monkey at Lincoln Children's Zoo at 14 years old.

Carlos

Carlos is the most outgoing of all the spider monkeys, and likes to stick his tongue out!

Axl

Axl loves to lay in the stream, while Kumar prefers to stay poolside.

Kumar

Keepers give Axl and Kumar one femur bone a week - Kumar loves to spend hours chewing!

TIGER ENCOUNTER

Guests entering the new Tiger Encounter will find a panoramic view of the incredible habitat for the world's most endangered tiger. Here, a rolling stream with limestone and carved rock creates a tranquil and majestic landscape for the Sumatran tigers.

Roar with the Tigers

Get in the driver's seat with a tiger as the passenger and smile for the camera! This one-of-a-kind photo opportunity gives guests an encounter with a tiger like they've never seen before.

Incredible Landscape

The large habitat boasts a

diverse landscape. The tigers can enjoy swimming in the pond, climbing rocks, laying in the grass or playing in and around plants throughout the day. The habitat was built with the tiger's natural surroundings in mind along with enrichment areas to create a healthy lifestyle.

RED PANDA CONSERVATION CENTER

One of the most adorable and loved animals in the Zoo will now greet guests as they begin their adventure. Here, just steps away from the main entrance, is an open habitat where the red pandas will roam between two areas connected by a log over the heads of guests walking below.

Walking Above

The most talked-about feature of the habitat is a log connecting the two habitats. Guests will get a view of the red pandas found at no other zoo in the country as they walk above the path that separates their two areas.

Indoor Experience

Guests can now enjoy seeing the red pandas anytime of the year in their new indoor viewing area. The pandas' inside habitat features an expansive climbing area made of tree limbs.

ZOO!

CALENDAR

JUNE

JUNE
08

WORLD OCEANS DAY | 10 A.M. – 5 P.M.

Celebrate World Oceans Day and visit animals at the Zoo that are from an ocean or habitat near the ocean!
